Greenville Lands Medical Diagnostics HQ

Lab21, a rapidly growing United Kingdom-based medical diagnostics firm, acquired Selah Technologies, a local company established from Clemson research, as a platform to grow its U.S. operations. Greenville will not only serve as the headquarters, but will also be home to a diagnostics laboratory focused on oncology and product distribution operations. Numerous partners, including the SC Department of Commerce, SC Research Authority and the City's Greenville Local Development Corporation, played a significant role in the project.

Clemson MBA Program Moves to Downtown Greenville

Clemson University is moving its MBA program into the former Bowater Headquarters overlooking the Reedy River Falls in downtown Greenville. The office will also house professional and continuing education programs, the Spiro Institute for Entrepreneurial Leadership, as well as other support programs for small businesses and entrepreneurs. Clemson President James Barker noted, "Many top-ranked business schools have relocated their MBA programs into energetic urban environments." Greenville's downtown is "one of America's finest," he said, "and we are glad to be part of it."
