Green Cloud Technologies growing its headquarters in Greenville County

Cloud solutions provider creating approximately 50 new jobs

GREENVILLE, S.C. – September 25, 2018 – [Green Cloud Technologies](#), a Greenville-based cloud technology solutions provider, opened the company's new Greenville, S.C. headquarters with South Carolina economic development leaders, county and city officials during a ribbon cutting ceremony Tuesday, September 25th. The company's \$7.8 million investment is projected to create 50 new jobs over the next five years.

Green Cloud was founded in 2011 by IT, telecom and communications veterans who created a successful business model completely focused on building partner networks and providing customers with world-class servers, backup and recovery solutions. The company's new 14,470 square-foot headquarters features semi-private workspaces with ergonomically designed workstations, a large open meeting space with high ceilings and natural light, a technology-rich multimedia studio for audio and video productions and a high-tech security system with smartphone controlled entry.

"Our new, modern office will accommodate our projected growth and build on our culture of innovation, teamwork and collaboration so we can continue to deliver sophisticated, cloud-based technology solutions to our customers," said Green Cloud CEO and Co-Founder, Keith Coker. "Green Cloud's accelerated growth over the last eight years is directly attributed to our talented, innovative and customer-centric employees, and today is a celebration of their contributions as we prepare for future growth."

"South Carolina is on the cutting edge of industry, and with companies like Green Cloud Technologies investing and growing in our state, that trend will only continue," said Governor Henry McMaster. "I congratulate this innovative company and wish them continued success within our borders and beyond."

“Once a tobacco, textiles and tourism state, South Carolina now features a complex, highly-advanced economy that is the perfect home for innovative companies like Green Cloud Technologies,” added Secretary of Commerce Bobby Hitt. “I congratulate this great company on their continued growth and look forward to seeing them thrive for years to come.”

Green Cloud was ranked 73rd on Inc. magazine’s *Inc. 500* in 2016, the most prestigious ranking of the fastest-growing private companies and was an *Inc. 5000* honoree in 2017 and 2018. In 2015, the company was named the number one *SC Fastest Growing Company* in 2015, and Energage named the company as a *Top Workplace in SC* in 2017 and 2018.

“We are proud of the growth of Green Cloud Technologies in Greenville, and we are confident in their continued success in providing vital services in a growing area of innovation,” said H.G. “Butch” Kirven, Greenville Area Development Corporation director and chairman of Greenville County Council. “Green Cloud Technologies’ decision to grow its team and headquarters in Greenville County acknowledges our highly skilled workforce, our technology driven business ecosystem, and our appreciation for business enterprises in Greenville County.”

“Green Cloud Technologies is a great example of a company combining highly refined technology with the Upstate’s exceptional talent base to grow their business,” said Mayor Knox White of the City of Greenville. “The company has found a formula for success keyed on customer insight and innovation and serves as a great demonstration of our community’s collaborative approach to expanding its knowledge economy while leveraging the opportunities to be found in our city and state.”

Green Cloud operates six world-class data centers built on industry-leading platforms such as Cisco and VMware in Atlanta, GA, Greenville, SC, Houston, TX, Minneapolis, MN, Nashville, TN and Phoenix, AZ. The new company headquarters is located at 510 Airport Road, Unit A, Greenville, SC 29607 in the Haywood Ridge Office Park. To learn more about Green Cloud, visit www.gogreencloud.com
